PROFESSIONAL SUMMARY

Motivated and project-driven Full Stack Developer with hands-on experience building AI-powered, full-featured web applications using the MERN stack and modern frameworks including Next.js and TypeScript. Demonstrates strong command of both frontend and backend development, third-party API integrations, cloud deployments, and database management. Passionate about writing clean, scalable code and delivering exceptional user experiences. Open to junior roles, internships, and remote opportunities where skills can be applied and grown in a collaborative environment.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Bootstrap, TailwindCSS, Three.js
- **Backend:** Node.js, Express.js, Firebase, Appwrite, .NET
- **Database:** MongoDB, MySQL, Supabase
- **Programming Languages:** JavaScript, TypeScript, C#, C++, Python, Java, SQL
- **Version Control:** Git, GitHub
- **Cloud & Hosting:** Vercel, Railway, GitHub Pages, Cloudinary, Supabase, PuterJs
- **Cross Platform:** React Native
- **Testing:** Cypress
- **Other Tools:** Android Studio, REST APIs, Clerk, Vapi, Word, Excel, PowerPoint
- **Soft Skills:** Problem Solving, Adaptability, Strong Communication, Team Collaboration, Independent Working

PROJECTS

Resumind — AI-Powered Resume Analyzer

Tech Stack: React Router v7, TypeScript, Puter.js | [Live Demo](#)

- Built a fully functional AI-powered resume analyzer that evaluates, scores, and provides structured feedback on uploaded resumes.
- Integrated Puter.js for secure user authentication and AI-based resume analysis workflows.
- Implemented resume scoring engine, detailed feedback generation, and actionable improvement suggestions.
- Developed a responsive, modern UI with smooth client-side navigation using React Router v7.
- Engineered structured resume upload handling and AI analysis pipelines for an enhanced end-to-end user experience.

Converso — AI-Powered Learning Management System

Tech Stack: Next.js, TypeScript, Supabase, Clerk, Vapi | [Live Demo](#)

- Built a fully featured AI-powered LMS enabling interactive, voice-driven learning experiences through AI companions.
- Integrated Clerk for secure authentication, user management, and subscription billing workflows.
- Used Supabase as the backend database for managing companions, session history, bookmarks, and user data.
- Integrated Vapi to create voice-enabled AI companions.
- Implemented companion creation, session tracking, bookmarking, recommendations.
- Deployed on Vercel.

EDUCATION

Bachelor of Science in Software Engineering | University of Management and Technology (UMT), Lahore

Expected Graduation: November 2026

ACHIEVEMENTS & HIGHLIGHTS

- Built and deployed Resumind — a production-ready AI resume analyzer integrating real-time AI feedback, scoring, and improvement suggestions.
- Built and deployed Converso — a full-scale AI-powered LMS with voice-enabled AI companions, live on Vercel with real users.
- Demonstrated ability to independently integrate complex third-party APIs including Vapi, Clerk, Puter.js, and Supabase.
- Maintained active GitHub portfolio showcasing consistent development activity and project diversity.
